

Jabil – Corporate Agreement

Machine Connectivity with Co-NECT – Tier 1 Global EMS

Why Co-NECT?

Modular approach:

Co-NECT can be installed **quickly on any machine as a standalone solution.**

Vendor-neutral:

Co-NECT includes the **widest library of machine interfaces** in the SMT industry.

ASM DEK Printer Example

Richest data:

Co-NECT provides access to the best and **most complete data sources.**

Subscription model:

Our latest connectivity-as-a-service (CaaS) business model is **flexible, risk-free and scalable.**

Co-NECT @ Jabil

“Cogiscan’s **Co-NECT** technology would allow us to connect **the majority of our SMT equipment within a few months [...]**”

Additionally, **the Co-NECT platform offers the richest data** among the alternatives that we evaluated.”

Colin Reid, Senior Director of Digital Factory, Jabil
